MARCOS ESQUEDA

FRONT-END DEVELOPER

Hi! I'm Marcos, a Front-End Web UI designer and JavaScript Developer with 4+ years of experience. I've been working with ReactJS and TypeScript for 2 years. I use CSS tools, libraries, frameworks and preprocessors like Sass. Focused on performance improvements, responsive, cross-browser and accessibility.

Open to work on a different role like Frontend Developer using ReactJS.

MOST RECENT WORK EXPERIENCE

Frontend Developer at Clorian

December 2022 - July 2024 [Remote (Spain - Venezuela)] [Technology - Tickets - Box office]

RESPONSIBILITIES

- Develop React.js native components. Reusing components between modules.
- Develop an administrative dashboard to handle a set of modules which can be used by users and product managers.
- Manage different actions within the application and serve as a bridge communicating with another internal application.
- Display of components in Storybook, to test them and use them in views or modules.
- Create components and views that can be translated to other languages like English, Spanish, etc. using react-intl library.
- Testing with Vitest in all modules and views of the application.
- Daily use of Jira for task management and project tracking.
- Modify and adapt components built in React TypeScript and CSS with Sass.
- Working and handling API's connection to create, read and update to handle data from users or clients or commerce.

KEY ACCOMPLISHMENTS

- Improving workflow using GIT.
- Improving the UX of views in the dashboard, applying functions and removing unused ones.
- Applying the responsive and mobile views in componentes.
- Use of Jira to manage tasks and Agile methodologies (Scrum).
